Lingering reductions in water uses are still present possibly due to COVID measures that reduce the number of in person meetings and teleworking. It is also noted that City water uses have been reducing gradually before COVID as seen on the multiyear trendline.

CITY OF KEY WEST MONTHLY ENERGY MANAGER REPORT

Date: January 11, 2021

Priorities

1. \$10,000 funded for FY2021 to retrofit City Police Station at 1600 N Roosevelt with new LED lights.
2. City staff are coordinating a City Hall hardening project that will include upgrades to the Cistern, under City Hall and return service from the Cistern to the employee bathrooms for toilet flushing in the downstairs of Building A as a trial period. If successful, the service from the Cistern can be expanded to include other bathrooms in City Hall.
3. Energy Manager and City Engineer are coordinating with Keys Energy Service(KES) to establish cost, savings, and payment options for an LED Street Light Relamping project. Staff hopes to have new costs and projected savings to recommend to the new budget and KES Contract with the City in FY2021.
4. DRAFT 10 Year energy plan was presented to the City commission at their November 04, 2020 meeting. Concept was well received by the Commission and Mayor and support was given for staff to proceed at preparing the 10 Year plan for approval.
5. We are online! Energy Manager's monthly report has been made available on the City website at <https://fl-keywest.civicplus.com/637/Monthly-Energy-Reports>.
